Code : VBEC

Computer Science and Engineering (CSE/CSO/CSM/CSC/CSD):

With every business and organization going digital, the IT Sector today is a booming field when compared to the other sectors. The most preferred specializations like **Artificial Intelligence & Machine Learning, Internet of Things, Data Science and Cyber Security** are offered along with the core subjects.

One must have enthusiasm and interest towards analytical and programming skills, web designing, Machine Learning, algorithms etc.. to be a CSE graduate.

Scope in this department can be experienced by the aspiring candidates in the areas like Software Developing, Testing, Database Developing, and Data Architect etc.

Electronics and Communication Engineering (ECE):

Electronics and Communication Engineering is one of the rapidly developing core engineering group and leading undergraduate programmes. It is one of the oldest departments in the institute and offers different programs with curriculum designed by JNTUH to prepare the students for the dynamic global society.

Electronics design, Communication technologies, VLSI, Embedded systems and Entrepreneurship skills are all part of our department educational curriculum. We have esteemed faculty members who are renowned for their path-breaking contributions in the field of Electronics and Communications.

The Department of Electronics & Communication was set up with the aim of nourishing the students into highly skilled engineers possessing extensive knowledge in the field of hardware and software.

Master of Business Administration (MBA):

MBA- a two year course- gives you a fundamental management knowledge to get a holistic approach of business across areas like Marketing, Finance & accounting and Human Resources, besides also developing the students Soft Skills and Leadership skills.

Placement Record:
